## Behind the scenes: The editorial process of Nature family journals

Date: 22 October 2019  
Time: 10.30 a.m. – 11.30 a.m.  
Venue: Classroom 4, SBS  
Hosted By: Asst Prof. Li Yinghui

Stephanie joined *Nature Communications* in September 2017. She received her PhD in cancer biology from National University of Singapore. In 2011, she joined Imperial College London for her postdoctoral work to study protein kinases and forkhead box transcription factors in breast cancer development and cancer drug resistance and following that she investigated inhibitors of Thousand-and-one amino kinases (TAOKs) as potential drug targets for breast cancer treatment at King's College London. She is handling manuscripts in areas of cancer cell biology and cancer molecular biology. She is based in the London Office.

She will give an introduction of the Nature Family journals and explain the editorial process on how editors make decisions on manuscripts that are suitable for their journals. She will also provide insights into editorial careers for PhD students.
